### 1 About CEIB

The Central Economic Intelligence Bureau (CEIB) is a nodal agency in the Ministry of Finance which receives information from Law Enforcement Agencies (LEAs) and acts as the Central Repository of economic offence records. This web portal - NEOR will help LEAs to register economic offences & investigate them. This user manual is created for use of Narcotics Control Bureau case form.

## User Manual for NCB

## 2 Introduction to NEOR

NEOR refers to the National Economic Offence Records, a secure web-based application created by the Central Economic Intelligence Bureau (CEIB). It functions as a central repository for information on economic offenses, facilitating data sharing and analysis among law enforcement agencies. The NEOR system aims to enhance collaboration and improve the ability to track and investigate economic crimes.

## User Manual for NCB

### 3 Purpose

A life cycle of NCB case in NEOR database case starts from entering the details of Search & Seizure/Incident Report by Narcotics Control Bureau. This is followed Investigation Report/Complaint, Trial & Conviction. Subsequently, the case may proceed to high-court & supreme court.

NEOR has the capability to capture important details of each case processed by NCB viz search & seizure, investigation report/ complaint, trial & conviction, high Court and supreme Court. This enables capturing and comprehensive tracking of a case from its initiation to its final resolution, ensuring quick and easy access to records archived whenever needed. NEOR acts as a one-stop portal for recording, retrieving, analysing, and sharing case information.

## User Manual for NCB

### 4 Key Features of NEOR

1. Agency specific Case Form for data entry.
2. Advanced Search: Search cases using various details such as case number, party name, order date, and more.
3. 360-Degree Profile: Consolidate all data related to a person/entity for a comprehensive view of offences reported.
4. Draft Saving Option: Save case details as draft before final submission for better record-keeping and review.
5. Holistic Case Overview: View cases booked across various NCB offices in a unified manner.
6. Hierarchical Structure: Facilitates controlled data sharing while restricting access based on user roles.
7. User Management: Enables different levels of access for various stakeholders.
8. Case sharing & Privacy Controls: Provides smooth sharing of cases to interested agencies. Also, allows agencies to manage case visibility, ensuring data security and confidentiality.
9. By integrating these functionalities, NEOR enhances efficiency in Case Management, providing a streamlined approach for all stakeholders.

### 5.3 Calendar detail

Following illustration allows the user to select specific date from Calander on any screen;

- Click on  calendar icon to open the calendar chart.

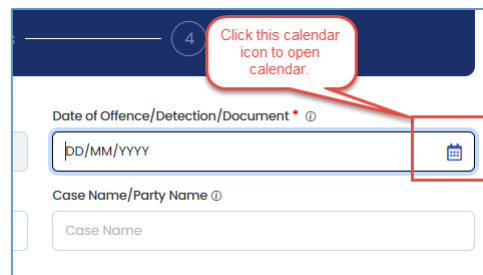

Figure 5-1

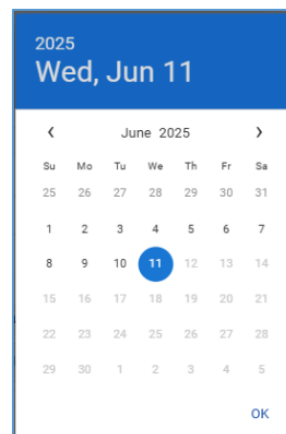

Figure 5-2

- Follow the steps below to select date.
  - On the top of the calendar chart, click on the year number & select the year from the year list.

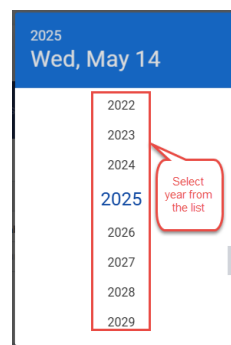

Figure 5-3

- Click on slide button  to select the month.

## User Manual for NCB

- Click on date number to select the date.
- Click on **OK** icon to consider the date with month & year.

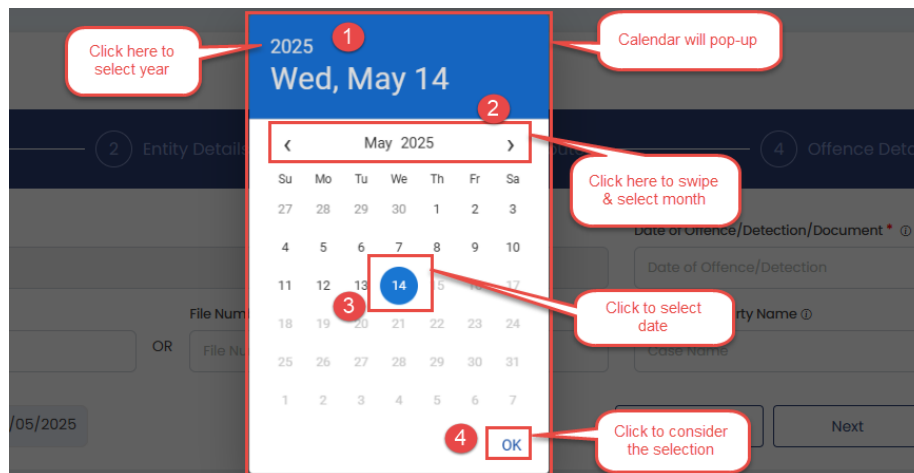

Figure 5-4

- Below is the example of selected date.

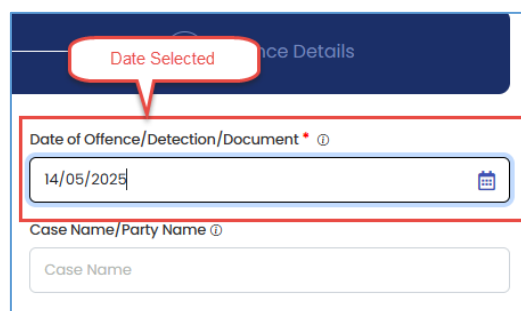

Figure 5-5

## User Manual for NCB

### 6 Getting Started

Access to NEOR is limited to authorised users. To use it, a request needs to be made to create an account. After that, the user may log on to NEOR using their credentials. Upon logging in, NEOR allows users to start any modules to which they have access rights.

## User Manual for NCB

### 7 Functionality for NCB

1) New NCB Case entry;

NCB Agency can enter Case data into NEOR using one of the following methods:

- a. Manual Entry
- b. Via API
- c. Bulk upload (using Template)

2) Edit existing Case entries and share Case with other agencies.

3) Provide access to details of the Case via **Seek Consent feature**.

4) Add relevant order copies as PDF documents to the new / existing Case.

5) Save the Case as a Draft before final submission using the "**Save As**" option. Draft Case Forms will appear under **Draft List**. User can access the Draft Cases from [Case Form >> Draft List](#) option. [Edit Draft Case](#).

6) Search Case entry via various search criteria e.g.: NEOR ID, Agency, Date etc.

7) Generate Reports/ MIS.

8) Transfer Cases.

9) Privacy function to limit the access of case details to certain agencies only. Case details can be made private Before & After submitting a Case using privacy settings.

10) Case related information can be added in five different stages.

- 1) Search & Seizure
- 2) Investigation Report (IR)/ Complaint
- 3) Trial & Conviction
- 4) High Court
- 5) Supreme Court

11) Sharing of Cases from one agency to other e.g.: NCB to CBI

12) Case form details can be downloaded using this  pdf icon in pdf format from case list >> view >> detailed view.

## User Manual for NCB

### 8 Logging In

Enter the website link in browser's address bar and press Enter. The login page will be displayed.

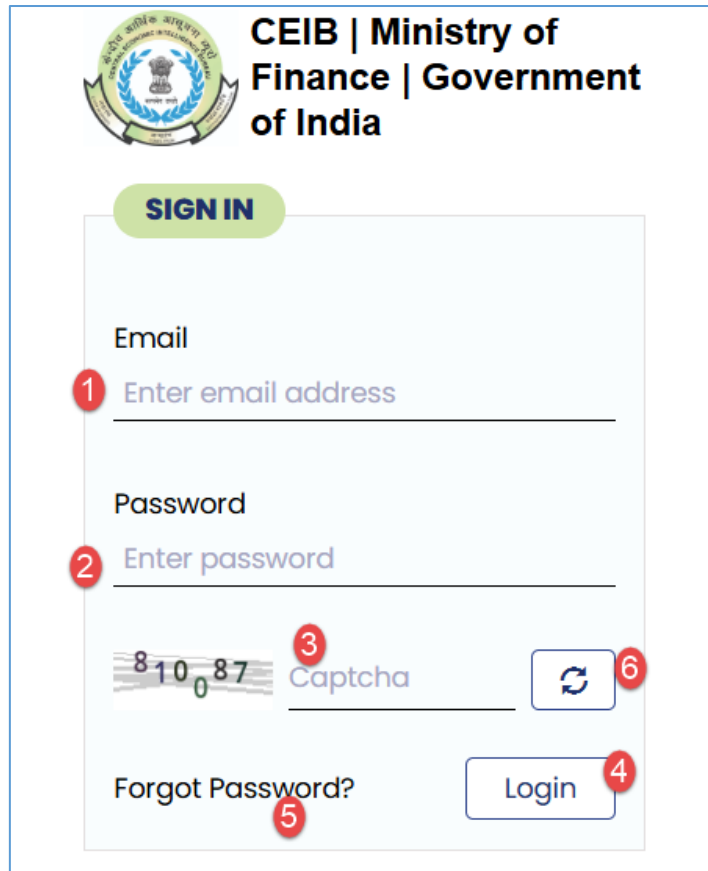

Figure 8-1

- 1) Enter Email ID, the registered email ID, which has been used to create the user.
- 2) Enter password
- 3) Enter Captcha code as displayed.

- 4) Click  Button.

- 5) Click on  refresh button to refresh the captcha. Captcha validity timing depends on the server session out time.

- 6) In case of forgotten password, user can create new password by selecting the “” option

- 7) User to click  link available on the login page.

## User Manual for NCB

Figure 8-2

- 8) User will be redirected to a page where user can enter the registered email Id.
- 9) User can enter captcha.
- 10) Click on  to receive the Reset Password link.
- 11) A 'Reset Password' link will be sent to the user's registered email Id.
- 12) By clicking on the 'Reset Password' link, user can reset the password and subsequently log in to NCB Portal using the new credentials.
- 13) Upon successful login, user will be directed to the [Dashboard](#) page.

## User Manual for NCB

### 9 Dashboard

After Successful LOGIN you will be directly re-directed to Dashboard page.

  - REIC

## User Manual for NCB

- Bank Module
- GEP
- 360 Profile
- Advanced Search
- MIS
- Admin
- You can hover over the map to view the cases district wise.
- You can explore graphs-based cases & amount that are being handled by different agencies.
- Below menus will show you various types of data & graphs related to agencies, districts, cases & amount.
- Click on them to explore.

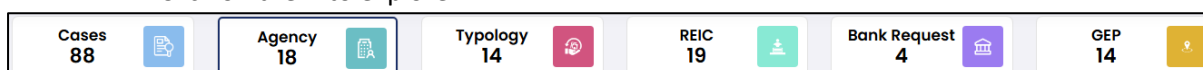

Figure 9-3

## User Manual for NCB

### 10 Case Form

The Case Form module in NEOR enables users to enter offence-related case data. Cases can be added by users from either an NCB agency or the CEIB. Case entry can be performed either manually, or through the bulk upload utility. NCB users, can create new Case entries or edit existing Cases within the database for their respective sub-agencies.

**The Case Form module includes features for;**

- 1) [Add Case](#)
- 2) [Draft List](#)
  - a. [Edit Case- saved as draft](#)
  - b. [Edit Case – submitted](#) from [Case list](#) Menu
- 3) [Share Case](#)

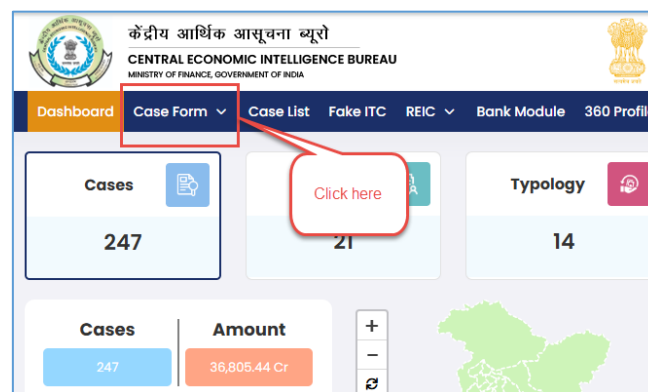

Figure 10-1

- On the dashboard, click on  menu to explore its menu options and sub menus.

## User Manual for NCB

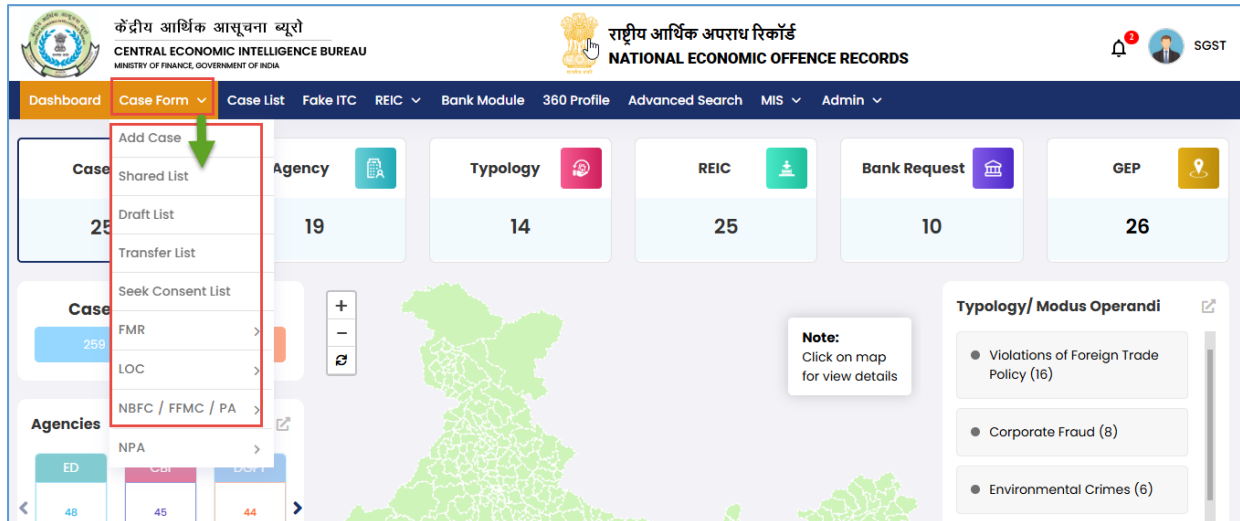

Figure 10-2

### 10.1 Add Case

Add Case feature is designed for authorized law enforcement agencies (LEAs) to register new cases related to economic offences within India's Central Economic Intelligence Bureau (CEIB) framework.

**Path:** Case Form >> Add Case

Select **Add Case** option from [Case Form](#) menu as shown in the [image](#) below;

#### Case Registering Levels:

Journey of addition of new case is as below:

User has to fill the Case Form to create New Case, which has following tabs;

1. [Case Identifiers](#)
2. [Entity Details](#)
3. [Case Attributes](#)
4. [Offence Details](#)

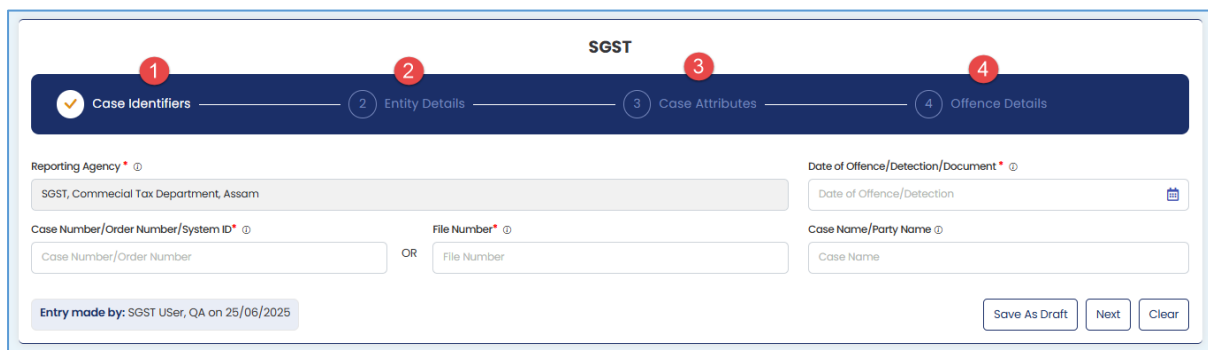

The screenshot shows the 'Case Form' registration process. At the top, there is a progress bar with four steps: 1. Case Identifiers (selected), 2. Entity Details, 3. Case Attributes, and 4. Offence Details. Below the progress bar, the form fields are organized into sections. The 'Reporting Agency' section shows 'SGST, Commercial Tax Department, Assam'. The 'Date of Offence/Detection/Document' section has a date picker. The 'Case Number/Order Number/System ID' section has a text input field. The 'File Number' section has a text input field. The 'Case Name/Party Name' section has a text input field. At the bottom, there is a 'Save As Draft' button, a 'Next' button, and a 'Clear' button. The entry is made by 'SGST User, QA on 25/06/2025'.

Figure 10-3

## User Manual for NCB

All four levels of the Case Form are explained in the table below:

### 10.1.1 Case Identifier Table

Case Identifier Table

| Field Name                          | Utility                                                                                                                                                                                                                                                            | Information                                                                                                                               | Sample                              |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------|
| Reporting agency                    | Identifies the government or law enforcement agency that is submitting the case information. It helps bifurcate cases based on reporting agency.                                                                                                                   | Name of the agency (e.g., CBI, ED, DRI, SFIO, Income Tax Department, Customs, etc.), sometimes with a regional office or unit designation | NCB Office, Delhi                   |
| Date of Offence /Detection/Document | Captures when the alleged offence occurred. It may be date of search, survey, Summon, detection and if not available then date of document                                                                                                                         | A specific date (DD/MM/YYYY)                                                                                                              | 15/03/2023                          |
| Case Number or File Number          | A unique identifier assigned to the case by the investigating agency for internal tracking. This unique identifier ensures precise and unambiguous referencing of the case across agencies. File no. is Internal reference used by the agency for file management. | Alphanumeric code                                                                                                                         | Case/123<br>File no 21              |
| Case Name /Party Name               | Describes the name of the person(s), company, or entity involved in the case. Aids in indexing and searching case records.                                                                                                                                         | Full name(s) of individual(s) or legal entities involved. May also include "vs" format if applicable.                                     | XYZ Infratech Pvt. Ltd<br>XYZ human |

### 10.1.22 Privacy settings (Before Submitting Form)

This feature of privacy settings put restrictions on data visibility across different agencies. Restricting the dissemination of information to agencies that have a legitimate need to know. If an agency is selected for not getting access to a specific case, then that agency would not be able to view details about that case in case list module as well as in advance search module.

- Click on **Privacy** tab to open privacy settings page.
- Click on ☐ check box button against the Listed agencies.

Figure 10-54

- After verifying details in all the tabs.
- Click on **Back** **Submit** buttons. **Back** Button is for going on back page & **Submit** is for submitting the form.

## User Manual for NCB

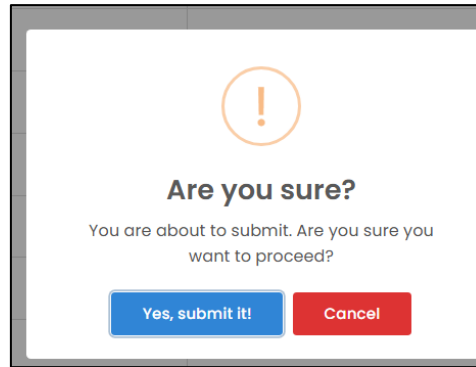

Figure 10-55

- Click on **Yes, submit it!** to submit the case, and **Cancel** button to return to data entry page.

### 10.1.23 Privacy settings (After Submitting Form)

If User wants to hide the case, then user may use privacy setting feature to hide the case from various agencies after submitting the case form.

**For Hiding the case after submitting the case, follow the below steps.**

- Click on **Case List** module.
- Click on  view icon. Summary view page will open.

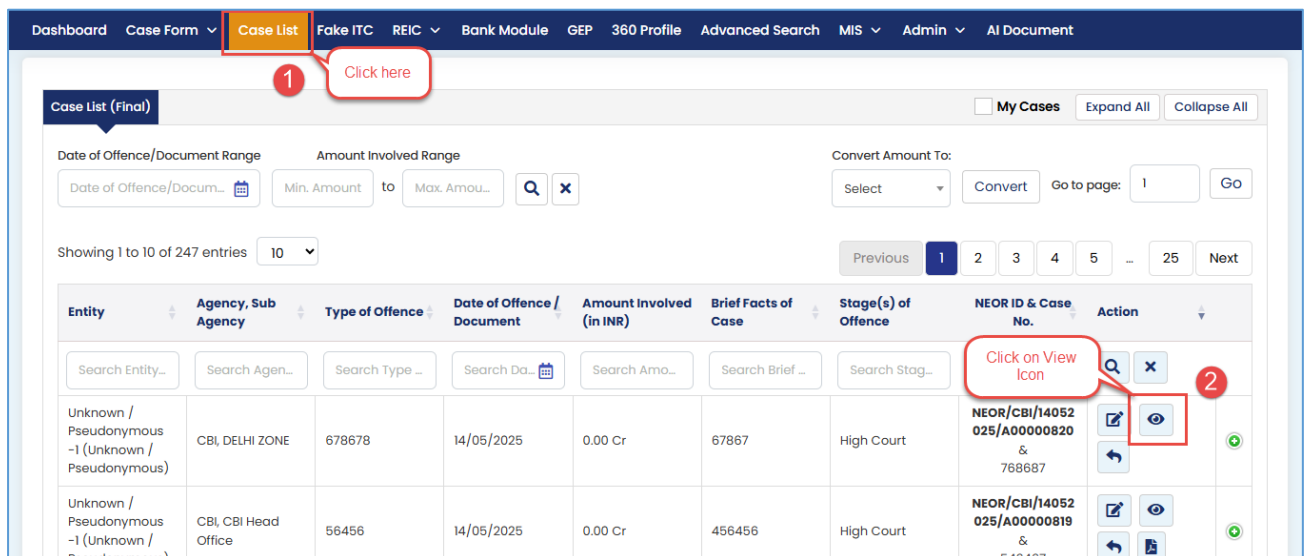

Figure 10-56

- Click on **Privacy** tab to open privacy settings page.

## User Manual for NCB

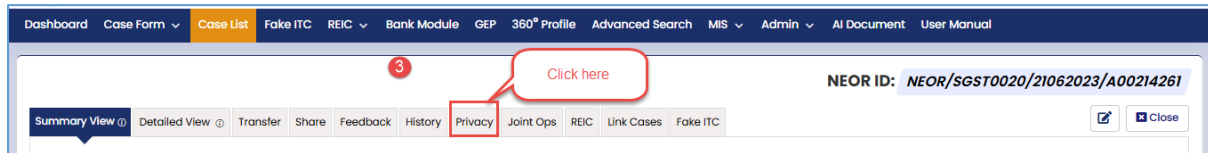

Figure 10-57

- Click on ☐ check box button against the Listed agencies with whom the user doesn't want to show the case.

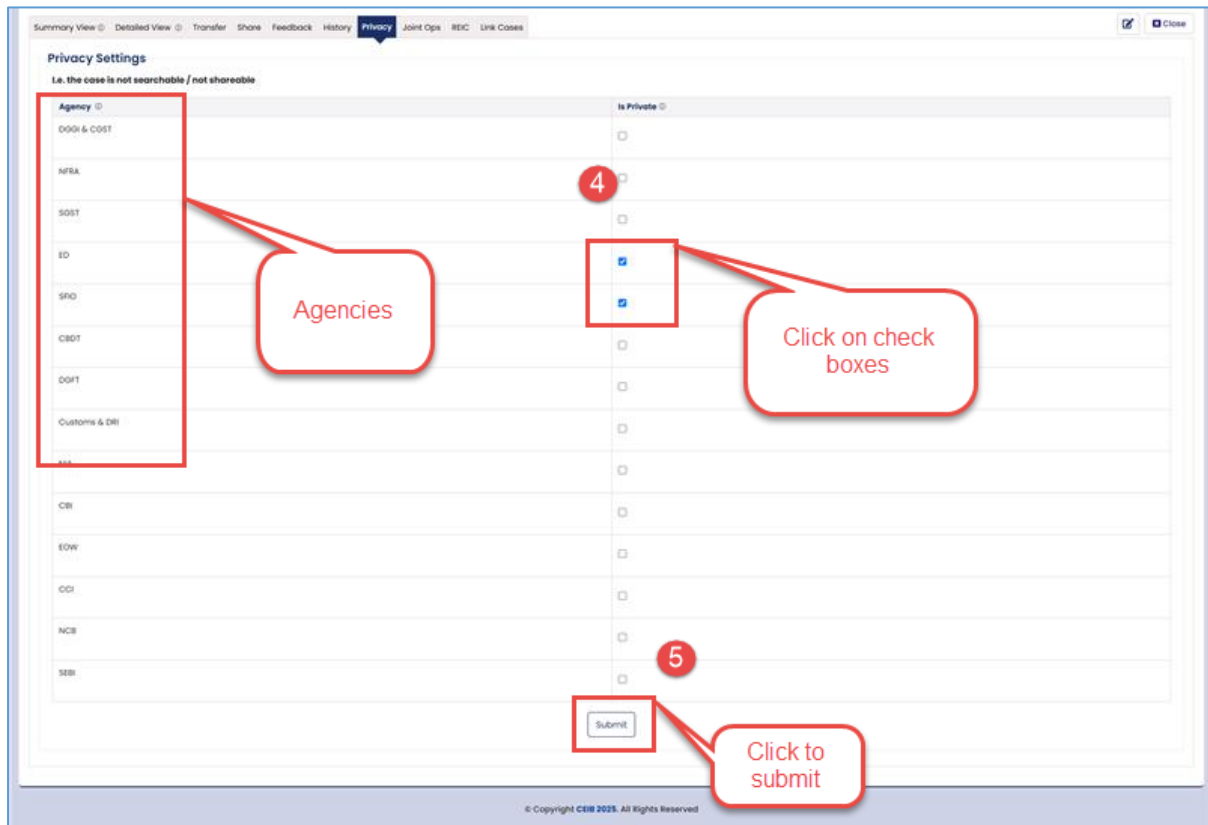

Figure 10-58

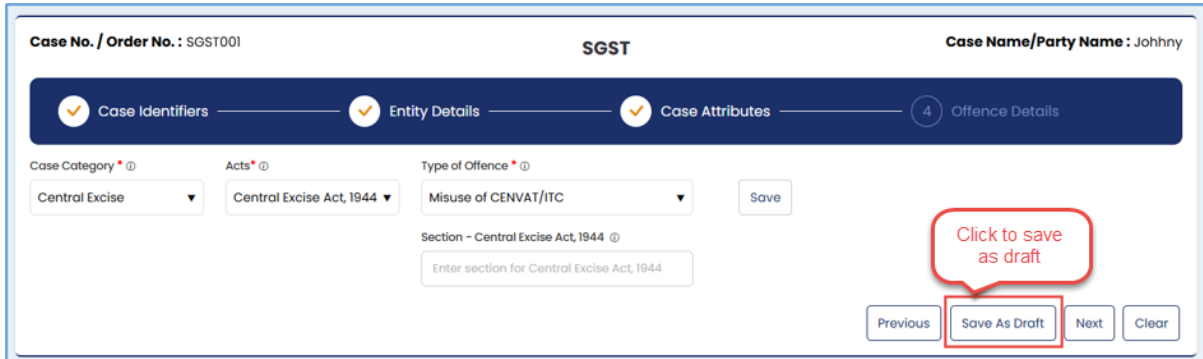

- Click on  submit button to save the Privacy settings configurations.
- To update the privacy settings, the user should follow the same process outlined [above](#).

## User Manual for NCB

### 10.2 Draft List

Draft list enables the user to see the cases that are partially entered by not submitted or NEOR ID is not generated. This indicates that the case is not yet visible to other agencies or to users at different levels within the same agency. This functionality allows users to preserve their progress and return later to complete or modify the form before final submission.

- For example, as shown below, while filling out the case form, the user can choose to save the entered data as a draft by using the [Save As Draft](#) button provided on the page. User can save form as draft at any level or stage of form filling.

The screenshot shows the 'Case Form' for 'SGST'. The form is divided into four sections: 'Case Identifiers', 'Entity Details', 'Case Attributes', and 'Offence Details'. The 'Offence Details' section is currently active. It contains fields for 'Case Category' (Central Excise), 'Acts' (Central Excise Act, 1944), and 'Type of Offence' (Misuse of CENVAT/ITC). A 'Save' button is present. Below these fields, there is a 'Section - Central Excise Act, 1944' field with a placeholder 'Enter section for Central Excise Act, 1944'. At the bottom right, there are four buttons: 'Previous', 'Save As Draft', 'Next', and 'Clear'. The 'Save As Draft' button is highlighted with a red box, and a red callout bubble points to it with the text 'Click to save as draft'.

Figure 10-59

### 11 Case List

This module serves as a centralized interface for law enforcement agencies (LEAs) to access and manage records of economic offence cases.

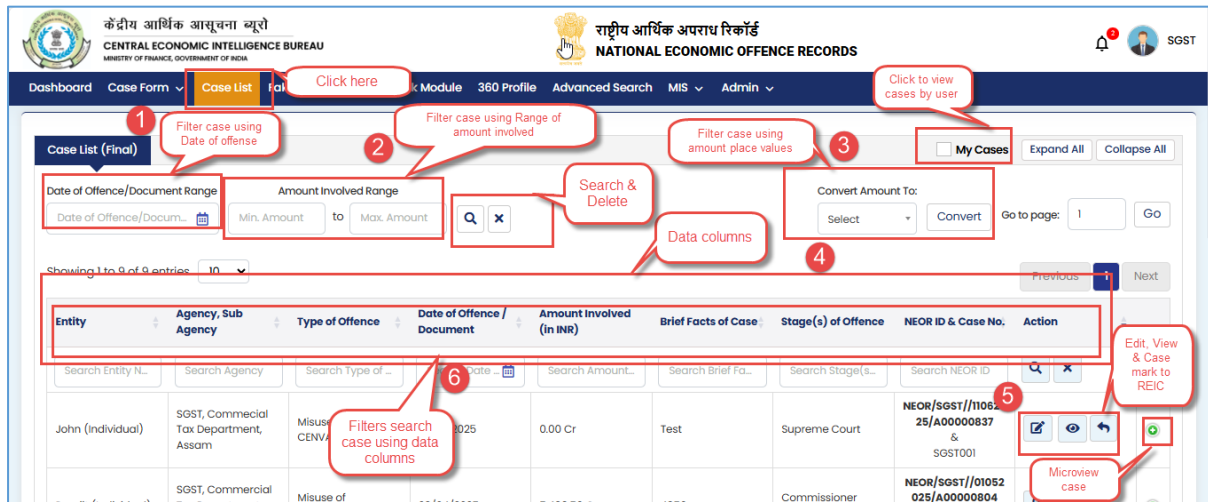

Figure 11-1

**Case List screen displays the following features:**

- 1) Search based on Date and Amount Involved
- 2) Denomination Conversion
- 3) View My Cases (Displays Cases created by Logged in User)
- 4) Expand All /Collapse All

**Search based on Date and Amount Involved:**

- 1) Date of Offence/Document Range – Click on calendar icon to select the time frame during which the alleged economic offence occurred. Click on   icons to search the case & clear the details entered.
- 2) Amount involved Range – Enter the amount in min – max amount text box. Alphabet, numerical & special characters are allowed. Click on   icons to search the case & clear the details entered.
- 3) Based on search criteria, Case List will be displayed; By default, all Cases are listed.

**Denomination Conversion:**

- Convert Amount by – The user selects a place value (e.g., Lakhs, crores etc..) from a dropdown menu. Based on the selection, the entered amount is converted to reflect the equivalent value in. Below is the example. If user select crores, then it will convert amount in lakhs to crores.

## User Manual for NCB

| Amount Involved (in INR) | Brief Facts of Case | Stage(s) of Offence | NEOR ID & Case No.                          |

| 1     | GST stands for <b>Goods and Services Tax</b> . GST was launched on July 1, 2017, in India. It is a special tax introduced in India to replace other indirect taxes such as excise duty, VAT, service tax, etc. GST is the only indirect tax law for the entire taxing system in India. It makes it easy to track all goods and services in a simple and organised manner. Goods and services have different tax rates for each sector. The Central Board of Indirect Taxes and Customs (CBIC) will be responsible for all the changes in the GST tax system. GST rates change many times in India. Critics say that GST is a good idea but a bad implementation. It makes things more expensive for people.<br>GST stands for <b>Goods and Services Tax</b> . GST was launched on July 1, 2017, in India. ### 11.1.2.3 Transfer

Transfer form allows users to transfer a case to user of another sub-agency within the agency, along with the ability to attach supporting documentation and internal remarks.

- Click on  to open case transfer page.

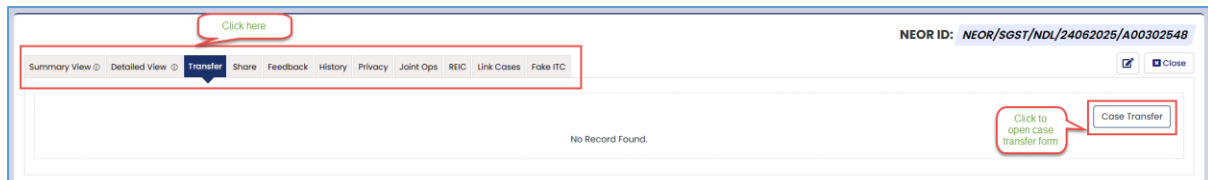

Figure 11-12

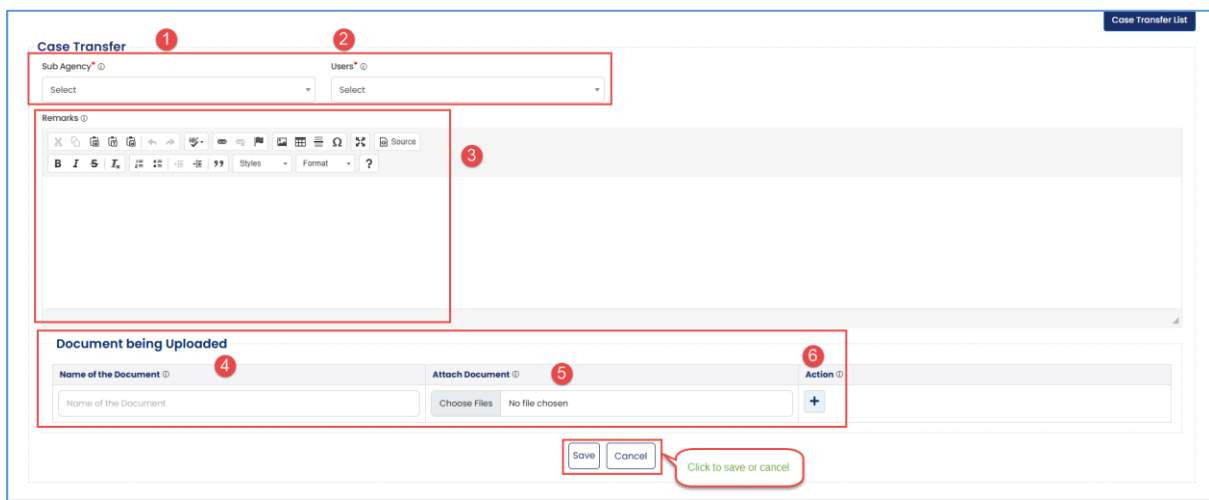

Figure 11-13

#### 1. Case transfer form

##### Following are the fields of this form

- 1.1. Sub Agency - Select the destination sub-agency from the dropdown options to which the case should be transferred.
- 1.2. Users - Choose the user within the selected sub-agency from the dropdown options.
- 1.3. Remarks - Write any comments, instructions, or clarifications relevant to the case transfer. Alphabets, numerical & special characters are allowed in this field.

##### Document being Uploaded

- 1.4. Name of the Document - Enter the title for the document being uploaded. Alphabets, numerical & special characters are allowed in this field.
- 1.5. Attach Document - Click on choose file button to upload any supporting document in this field.
- 1.6. Action (Optional)- This Field is optional. Click on  add icon to add more document details.

## User Manual for NCB

- Click on **Transfer List** menu under case form module to view all the transferred case list.

### 11.1.2.4 Case Share

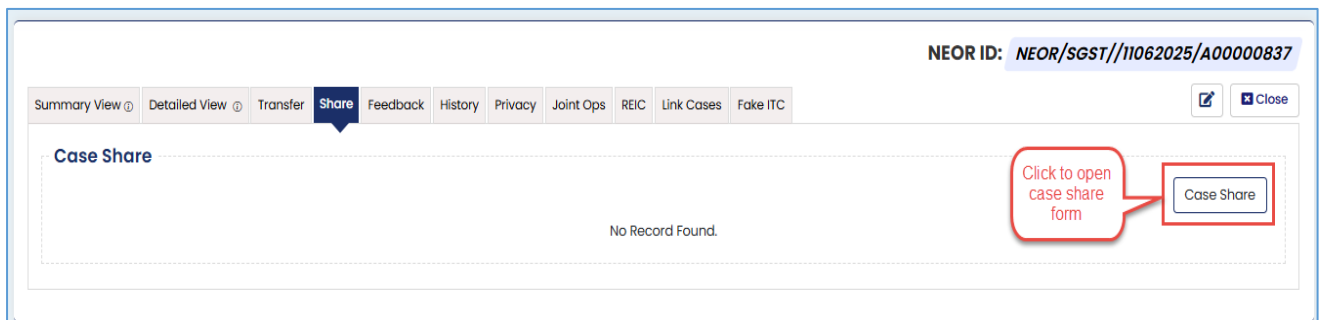

Share case facilitates the real-time, consent-based sharing of economic offence data among various law enforcement agencies (LEAs). For example, case sharing between NCB to CBDT.

The screenshot shows the NCB Case Share interface. At the top, there are logos for the Central Economic Intelligence Bureau and the National Economic Offence Records. The main header includes the NEOR ID: NEOR/SGST//11062025/A00000837. Below the header, there is a navigation bar with tabs: Summary View, Detailed View, Transfer, Share, Feedback, History, Privacy, Joint Ops, REIC, Link Cases, and Fake ITC. The 'Share' tab is highlighted. A red callout box points to the 'Share' tab with the text 'Click here to share case'. Below the tabs, there is a form with fields for Reporting Agency, Date of Offence, Case Number, File Number, and Case Name. The 'Entity Details' section shows 'John (Individual)' and a table for Personal Details with columns: ID / Details, Aliases, Father's Name, Mother's Name, Spouse Name, DOB/Age/birth Year/Age Range, Mobile Number, Email ID, Gender, and Nationality.

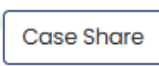

Figure 11-16

- Click on  tab to open case share page.

The screenshot shows the NCB Case Share detail form. At the top, there is a navigation bar with tabs: Summary View, Detailed View, Transfer, Share, Feedback, History, Privacy, Joint Ops, REIC, Link Cases, and Fake ITC. The 'Share' tab is highlighted. A red callout box points to the 'Share' tab with the text 'Click to open case share form'. Below the tabs, there is a form with a 'Case Share' section. A red callout box points to the 'Case Share' button with the text 'Click to open case share form'. The form also displays 'No Record Found.'

Figure 11-21

- Click on  request feedback icon to request for feedback from the agency with whom user has shared the case.

## User Manual for NCB

- Click on  view icon to view the shared case details.

**There are three types of feedback status for shared cases, each indicating the current state of the response from the receiving agency.**

- **In Process** – Indicates that feedback is pending and has not yet been provided by the user.
- **Actionable** – Indicates that feedback has been provided and contains actionable points or required follow-up.
- **Non-Actionable** – Indicates that feedback has been provided and generally does not require further action; however, it is subject to the discretion of the CEIB or LEA user to determine whether any action is necessary.

## User Manual for NCB

### 11.1.2.5 Feedback

The Feedback tab displays feedback replies received from users of other agencies with whom cases have been shared. Additionally, the lower section of the page provides a list of feedback requests initiated by the user, directed to those agencies for shared cases.

The screenshot displays the NCB (National Economic Offence Records) interface. The top navigation bar includes the Central Economic Intelligence Bureau logo and the National Economic Offence Records logo. The main header shows the user's role as 'SGST' and the NEOR ID: NEOR/SGST/NDL/24062025/A00302548. The left sidebar contains navigation options: Dashboard, Case Form, Case List, Fake ITC, 360° Profile, Advanced Search, Admin, and User Manual. The main content area is divided into two sections: 'Feedback Reply' and 'Request Feedback List'. The 'Feedback Reply' section shows a table with columns: Status Type, Amount Involved, Additional Revenue Detected, Additional Revenue Realized, Remarks, Feedback Date, Feedback By, Feedback To, Nodal Officer, and Attach Documents. A red box highlights the 'Feedback Reply' tab, and a red callout points to the 'View Feedback replies' link. The 'Request Feedback List' section shows a table with columns: Agency Requested By, Agency Requested To, Requested By, Remarks, Date, and Attach Documents. A red box highlights the 'Request Feedback List' tab, and a red callout points to the 'View list of requests for feedback' link.

| Status Type | Amount Involved | Additional Revenue Detected | Additional Revenue Realized | Remarks                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Feedback Date | Feedback By | Feedback To | Nodal Officer | Attach Documents          |

| Actionable  | 25.00 Cr        | -                           | -                           | But I must explain to you how all this mistaken idea of denouncing pleasure and praising pain was born and I will give you a complete account of the system, and expound the actual teachings of the great explorer of the truth, the master-builder of human happiness. No one rejects, dislikes, or avoids pleasure itself, because it is pleasure, but because those who do not know how to pursue pleasure rationally encounter consequences that are extremely painful. Nor again is there anyone who loves or pursues or desires to obtain pain of itself, because it is pain, but because occasionally circumstances occur in which toil and pain can procure him some great pleasure. To take a trivial example, which of us ever undertakes laborious physical exercise, except to obtain some advantage from it? But who has any right to find fault with a man who chooses to enjoy a pleasure that has no annoying consequences, or one who avoids a pain that produces no resultant pleasure? | 24/06/2025    | DOOI & COST | SGST        |               | <a href="#">View File</a> |

This feature provides a side-by-side comparison of the updated data with the previously submitted version of the case, enabling users to easily track and review all modifications made.

## User Manual for NCB

### 11.1.2.7 Privacy

The tab of privacy settings put restrictions on data visibility across different agencies. Restricting the dissemination of information to agencies that have a legitimate need to know. If an agency is selected for not getting access to a specific case, then that agency could not be able to view details about that case in case list module as well as in advance search module.

- This functionality has been explained in detail in [above](#) sections.

### 11.1.2.8 Joint Ops

The **Joint Ops** functionality allows the user to initiate a joint operation by selecting another agency for collaboration on a specific case.

- Click on  to open joint ops form page.

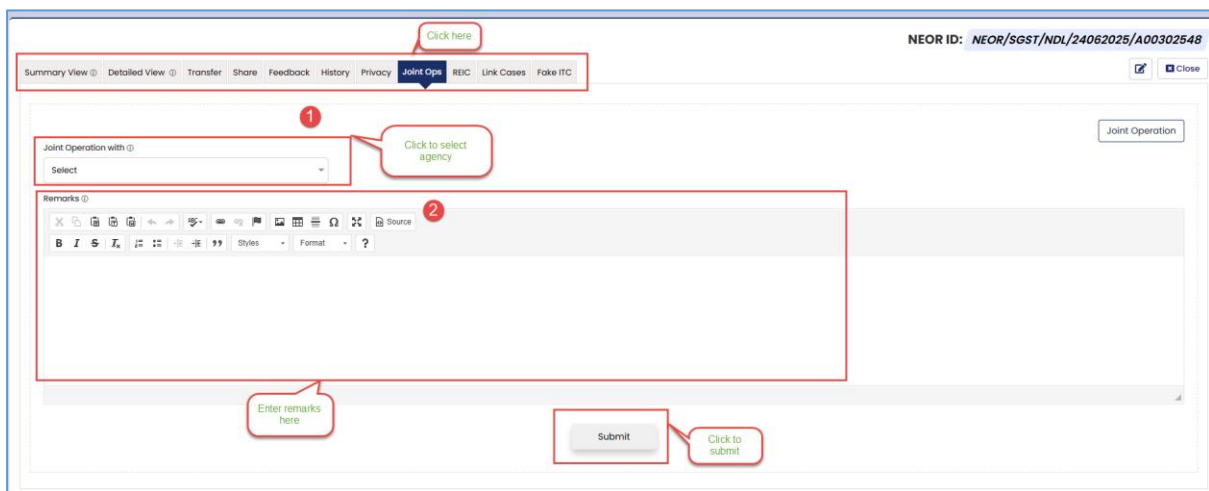

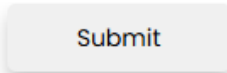

Figure 11-25

### 3. Joint Ops Form

Following are the fields of Joint Ops page

- 3.1. Joint Operation With – Select the collaborating agency from the available dropdown list (e.g., NCB, DGGI, Customs, etc.)
- 3.2. Remarks – The user can enter the details, context, or objectives of the joint operation here. Alphabets, numerical & special characters are allowed in this field.

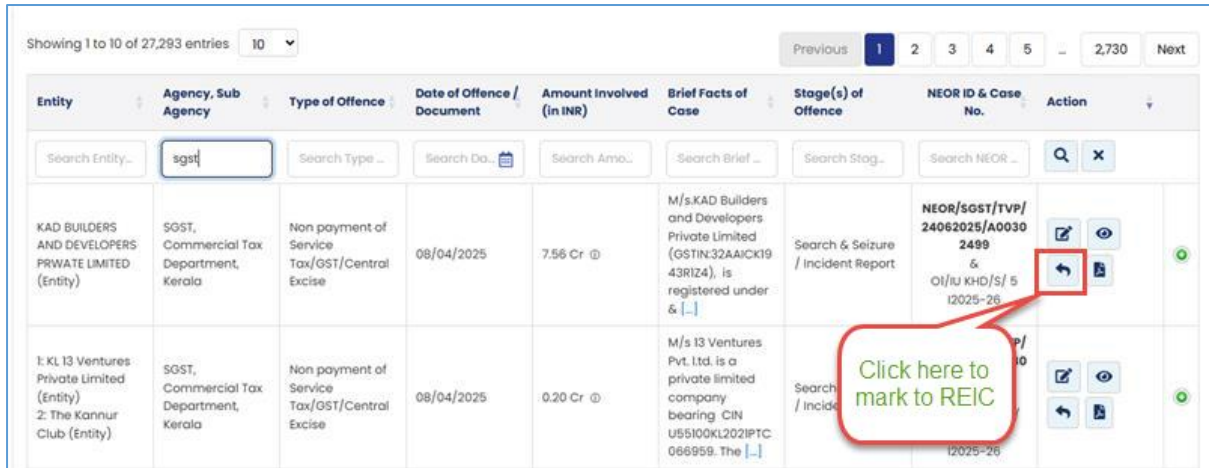

- 3.3. Click on  button to submit the form.

## User Manual for NCB

### 11.1.2.9 REIC

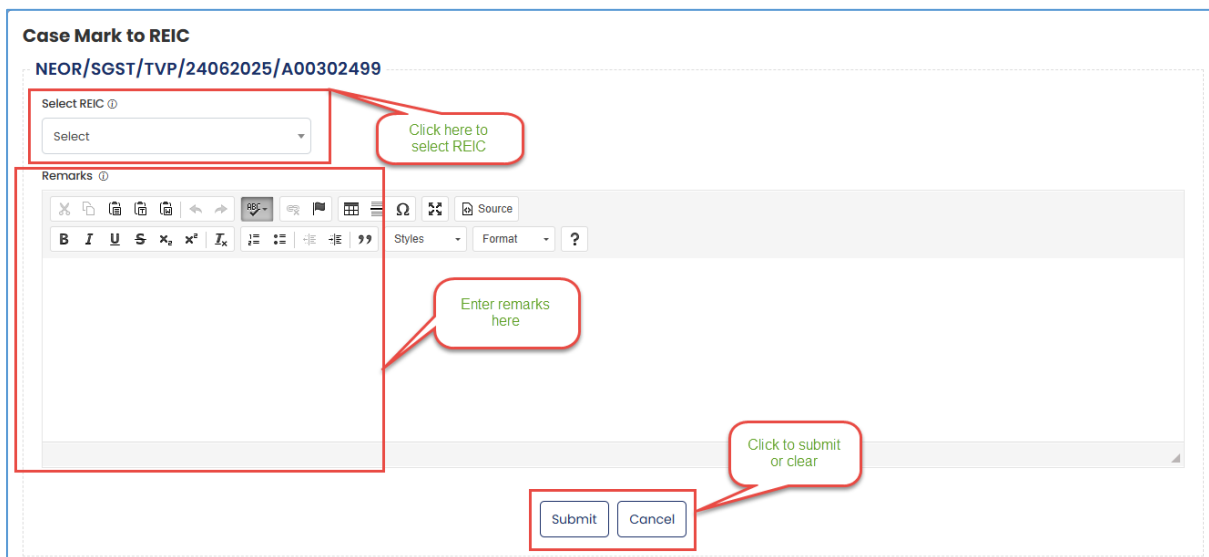

REIC (Regional Economic Intelligence Committee) is a coordination body comprising representatives from various enforcement and regulatory agencies at the regional level. **This functionality allows the user to mark a case to a Regional Economic Intelligence Committee (REIC).**

- To mark a case to REIC, click  the designated icon located under the Action column for the respective case on the Case List page.

### 11.1.2.10 Link Cases

Link Cases allows users to link related cases within the system. It enables better tracking and contextual understanding by connecting multiple cases that involve the same entities, offences, operational context or modus operandi. This helps maintain visibility and track interconnected investigations across agencies.

#### Link Cases

- Click on  to open case link page.

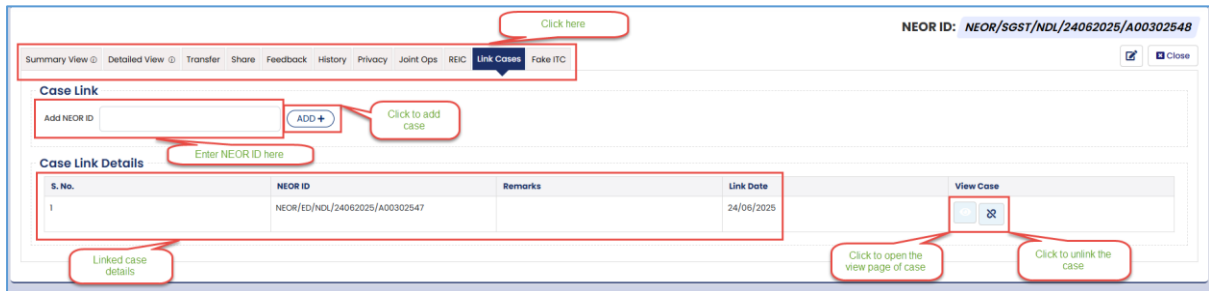

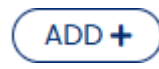

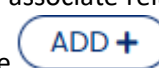

Figure 11-29

#### Case Link

Following is the process of linking cases:

- Add NEOR ID - Enter the unique NEOR ID of the case user wants to link.
- Click this  button after entering the NEOR ID to establish a link between the current case and the referenced one.
- To associate related cases with the current record, enter each NEOR ID individually and click the  button. The system supports linking multiple cases; however, only one NEOR ID can be added at a time. Repeat the process to establish additional case linkages as required.

#### Case Link Details

Once linked, case details are displayed below:

- S. No. – Auto-generated serial number of the linked entry.
- NEOR ID – Displays the linked case's reference number.
- Remarks – May include contextual notes if entered during linking.
- Link Date – Shows the exact date the linkage was established.
- View Case – Click on  to open the detailed view of the linked case.
- Unlink – Click on  unlink Icon/button to remove the association between the linked case and the current record.

Users can search for linked cases using the NEOR ID and Case No. filters available on the Case List module page.

- Enter the NEOR ID or Case No. in the respective filter fields.

- Click on the search icon to retrieve the case details.
- Once the search results are displayed, a yellow icon will appear under the *Agency-Sub Agency* column.
- Click on this icon to view the list of cases linked to the selected case.

## User Manual for NCB

### 11.1.2.11 Fake ITC

Fraudulently claimed input tax credit without the actual receipt of goods or services or without genuine business transactions. Such claims are typically made using fake invoices or shell companies to evade taxes.

#### Fake ITC

- Click on **Fake ITC** to open the Fake ITC page.

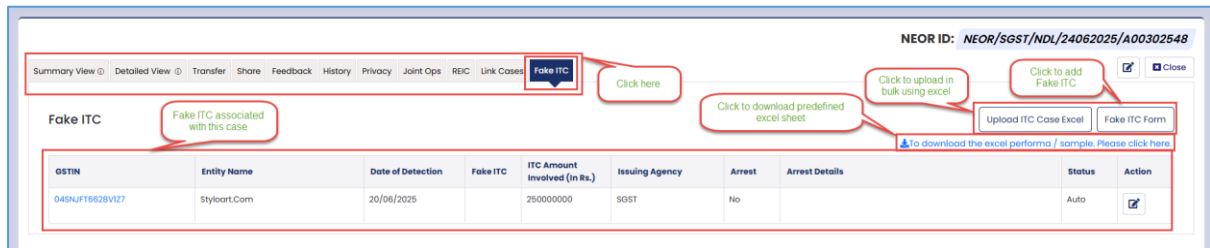

Figure 11-31

- Fake ITC section displays any Fake ITC that are linked to the current case for reference and further analysis.
- Users can directly initiate and add a fake ITC form from this section using **Fake ITC Form** button or they can upload fake ITC in bulk upload it using the **Upload ITC Case Excel** button.
- To upload in bulk, first click on [To download the excel performo / sample. Please click here](#) to download the excel template containing the predefined data input format for bulk ITC case uploads.
- For uploading multiple ITC cases in bulk, a predefined excel template is provided. Users must fill in the required data as per the specified format and upload it using the 'Upload ITC Case Excel' option.

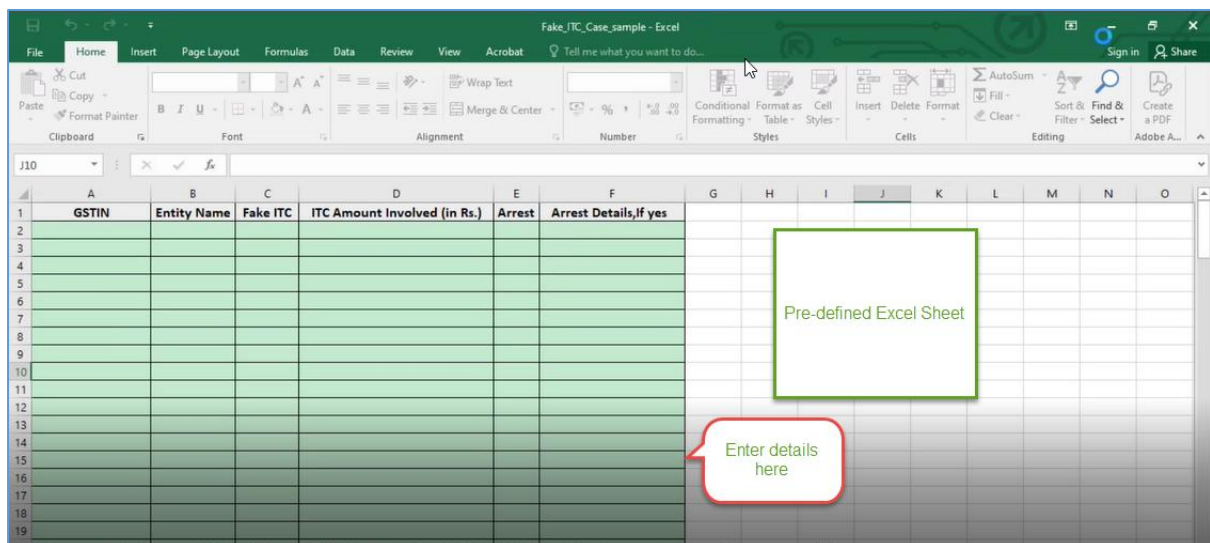

Figure 11-32

## User Manual for NCB

- Now, click on **Upload ITC Case Excel** to open upload fake ITC request page for uploading the excel template.

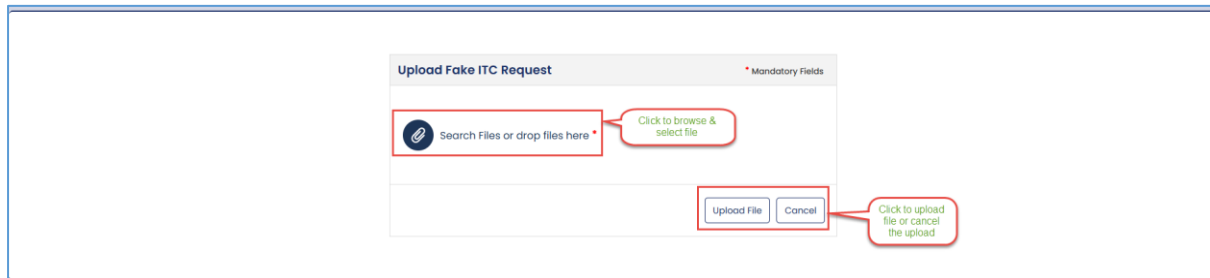

Figure 11-33

- Search Files or drop files here – Click on  this button to browse & select file from the device.
- Click **Upload File** button to upload file or **Cancel** button to cancel.

## User Manual for NCB

### 11.1.3 Micro View Case

**Micro view** refers to a focused, detailed representation or perspective of a smaller part within a larger system or dataset.

- Click to open the micro view of the case.
